Prosper project

Dallas-based Wilbow USA Corp. has a new residential development in the Collin County town of Prosper.

The Greenspoint project will include lots for 183 homes on 108 acres on Prosper's east side.

The development will include 15 acres of parks, a lake and horse trails.

Wilbow USA has other projects in North Texas, including the 47-acre Chapel Hill development in McKinney, the Heritage 337-lot neighborhood in Celina and a 42-home community in Keller called Silverleaf.

In Lancaster, the developer is working on a 1,200-acre project called Tribute at Mills Branch.

Wilbow USA is the American arm of an Australian property company that has been in business since the 1970s.
